DTF PRINTING SERVICE

PRINT ON ALMOST ANY FABRIC

DTF (Direct to Film) printing uses a special PET film to print full-colour designs with CMYK + white ink, then applies hot-melt adhesive powder and heat-presses the design onto fabric.

It can be applied on various materials such as cotton, polyester, canvas, denim and more, with vibrant colours and strong durability.

EMBROIDERY SERVICE

PREMIUM • DURABLE • PROFESSIONAL

Embroidery uses thread stitched directly into the fabric to create designs — giving a premium, textured, and long-lasting finish that doesn't fade or peel over time.

Unlike printing, embroidery can withstand high heat, washing, and stretching, making it perfect for uniforms, caps, and polo shirts where durability and a professional look matter most.
